

G FRESH

CARBOXYMETHYLCELLULOSE SODIUM USP+GLYCERIN USP

Compositions:

G-fresh eye drops: Each ml contains Carboxymethylcellulose Sodium USP 5 mg & Glycerin USP 9 mg.

Pharmacology:

The combination of Carboxymethylcellulose Sodium and Glycerin relieves the symptoms of dry eye in two ways. Firstly it provides lubricating and hydrating protective shield on the ocular surface of the eye and then it works below the tear film to provide protection to the cornea.

Dosage And Administration:

Instill 1 drop in the affected eyes as needed.

Contraindications:

It is contraindicated in patients with known hypersensitivity to any ingredient of this formulation.

Warning And Precaution:

Consult doctor if irritation, eye pain or visual changes worsen or persist beyond 72 hours.

Side Effects:

Vision may be temporarily blurred when this product is first used. Also, minor burning/stinging/irritation may temporarily occur.

Use in Pregnancy and Lactation:

There are no adequate and well-controlled studies in pregnant women. Carboxymethylcellulose Sodium and Glycerin should be used in pregnancy only if the potential benefit justifies the potential risk to the fetus. Carboxymethylcellulose Sodium or Glycerin has not been measured in human milk. Caution should be exercised when the combination of Carboxymethylcellulose Sodium and Glycerin is administered to a nursing mother.

Drug Interaction:

No significant drug interactions have been reported.

Overdosage:

No information provided.

Storage:

Store in cool and dry place protect from light. Keep out of reach of children.

Packing:

G-fresh eye drops: Each plastic dropper bottle contains 10 ml sterile eye drops.
