

SINAFRESH

CARBOXYMETHYLCELLULOSE SODIUM USP

Compositions:

Sinafresh Liquigel Eye Drops: Each ml sterile lubricant eye drops contain Carboxymethylcellulose Sodium USP 10 mg.

Pharmacology:

This eye drop is a lubricating formulation similar to normal tears, containing a mild non-sensitizing preservative that, when used, ultimately changes into components of natural tears. The pharmacological effect of the active substance, Carboxymethylcellulose Sodium is not receptor-mediated, but is due to its property as viscosity enhancer resulting in increasing the retention time of this eye drop.

Dosage And Administration:

Instill 1 drop in the affected eye(s) 4 times a day or as needed.

Contraindications:

Hypersensitivity to any of the ingredients. This drop should not be used in infants and small children under 3 years.

Warning And Precaution:

Concomitant ocular medication should be administered 15 minutes

Side Effects:

Burning, Eye Irritation/Pruritus, Visual disturbance, Ocular discharge were reported with this eye drops

Use in Pregnancy and Lactation:

Safe use during pregnancy and lactation has not been established.

Drug Interaction:

None known

Overdosage:

No toxic side effects from systemic overdose are expected.

Storage:

Store in a cool and dry place away from light. Keep out of reach of children. Do not touch the dropper tip to surfaces since this may contaminate the solution. After one month of the opening do not use the medicine of dropper.

Packing:

Sinafresh Liquigel Eye Drops: Each plastic dropper bottle containing 10 ml sterile lubricant eye drops.
